## WORK EXPERIENCE

### Freelance Front End Developer

12/2022 – 3/2023,

Vellore

- Developed a To-do application using HTML, CSS, and JavaScript, which allowed me to effectively manage my daily tasks and improve my front-end development skills.
- Created a Calculator application using HTML, CSS, and JavaScript with an object-oriented approach, which enabled me to become proficient with OOPS concepts, enhance my programming skills, and gain hands-on experience with complex code implementations.
- Built a Currency Converter application using HTML, CSS, and JavaScript for personal use, which provided me with real-time exchange rates for all major currencies and helped me become proficient with asynchronous JavaScript, improve my data handling, and enhance my web development abilities.
- Completed a blog website using HTML, CSS, and React for a freelance client, incorporating responsive web design, which showcased my front-end design skills and allowed me to experiment with different UI/UX concepts and technologies. The website was visually appealing and had a user-friendly interface that met the client's requirements and exceeded their expectations.
